

Dear Psychology Majors/Minors,

Now that spring has finally arrived in Evanston, we can set our sights on summer. While many NU students take the summer off, consider the advantages of Summer Session. You have over 300 courses to choose from and enjoy everything Northwestern has to offer...during the best time of year!

- Get closer to your degree, fulfill distribution requirements or focus on a particular course by choosing from more than 300 undergraduate courses in 62 subject areas.
- Earn a year's worth of language or science credit in just nine weeks. Choose from three-course sequences in a variety of languages, biological sciences, chemistry or physics.
- Summer courses are flexible so you can get your credits out of the way and have a job or an internship at the same time. Classes range from three to eight weeks and are taught during the day, evening and on weekends.
- There is no shortage of fun things to do on campus during the summer. Take time to enjoy the many sports, recreational activities, musical and dramatic performances, lectures and cultural events in both Evanston and Chicago.
- Summer Session registration remains open until June 21 (Late registration 6/22-6/26.)

Here is the complete list of [Summer Session Courses](#).

[Register for Summer Session Courses](#) here.
