

Vijay Anand Mittal

April 2021

Northwestern University
Department Psychology
2029 Sheridan Road
Evanston, IL 60208
<http://www.adaptprogram.com>

Phone: 847-467-3380
Fax: 847-491-7859
Email: vijay.mittal@northwestern.edu

Major Professional Interests: schizophrenia; risk for psychosis; early identification and intervention; neurodevelopmental models; adolescence; biomarkers and digital phenotyping; motor abnormalities and related brain circuit pathology; cognitive and affective dysfunction in psychosis; stress biology and environmental stressors; dimensional models of psychopathology; transdiagnostic approaches; individualized medicine; assessment and task construction.

Educational Background

- 2014-Present* Licensed Clinical Psychologist, Colorado #psy.0004100
- 2008 – 2010* Postdoctoral Fellowship
University of California Los Angeles
Clinical Neuroscience Lab
Training Program in Clinical Research in Schizophrenia and Mood Disorders
Department of Psychology
- 2007- 2008* APA Approved Internship in Clinical Psychology
University of California Los Angeles
Adolescent Serious Mental Illness Track
Department of Psychiatry and Biobehavioral Sciences
- 2008* Ph.D., Clinical Psychology
Emory University
Department of Psychology
- 2004* M.A., Psychology
Emory University
Department of Psychology
- 2001* B.A. Psychology
University of California Santa Barbara
Graduated: *magna cum laude*

Pre-doctoral Academic Honors

Smadar Levin Award, honorable mention, Society for Research in Psychopathology,
September 2009
National Institute of Health (NIH), Clinical Research Loan Repayment Program (LRP)
Award, 2009-2011, 2011-2012

National Institute of Mental Health (NIMH), Ruth Kirschstein National Research Service Award (NRSA), T32-MH14584-33, 2008-2010
Staglin Family Intern in Adolescent Serious Mental Illness, 2007-2008
National Science Foundation (NSF) Research and Teaching Award, 2006-2007
Emory University, Psychological Center Research Award, 2006-2007
Georgia Psychological Association; Division G (Adolescent and Child Psychology), Presentation Award, 2006

Postdoctoral Recognitions

AT&T Research Chair, 2018-Present
Association for Psychological Science Fellow (APS) 2017
UC Davis ERP Boot-Camp Fellowship, 2017
Brain and Behavior Research Foundation, Independent Investigator, 2017
Early Career Award, Society for Research in Psychopathology (SRP), 2016
Early Career Impact, Federation of Associations in Behavioral and Brain Sciences (FABBS), 2016
Face of the Future Symposium Presenter, Society for Research in Psychopathology, 2014
Outstanding Faculty Research Award, University of Colorado Boulder, Department of Psychology and Neuroscience, 2014
National Institute of Health (NIH) Biobehavioral Research Awards for Innovative New Scientist (BRAINS) Recipient, 2011

Professional Associations

Society for Biological Psychiatry, 2016-present
Northwestern University Interdepartmental Neuroscience, 2016-present
Institute for Policy Research, Northwestern University, 2016-present
Schizophrenia International Research Society (SIRS), 2013
Eastern Psychological Association (EPA), 2012
International Graphonomics Society, 2011
Center for Neuroscience, University of Colorado at Boulder, Member, 2010-present
International Early Psychosis Association (IEPA), 2010
Society for Research in Psychopathology (SRP), 2002-present
Association for Psychological Science (APS), 2002-present
American Psychological Association (APA), 2006-present
National Society of Colligate Scholars, 2001-present
Psi Chi, National Honor Society in Psychology, 2001-present
Phi Beta Kappa, 2001-present
University of California Golden Key, 2001-present

Employment

2018 – Present Associate Professor
AT&T Research Chair
Department of Psychology
Department of Psychiatry (secondary)

- Department of Medical Social Sciences (secondary)
Northwestern University
- 2015 – 2018 Assistant Professor
Department of Psychology
Department of Psychiatry (secondary)
Department of Medical Social Sciences (secondary)
Northwestern University
- 2016 – Present Faculty Associate
Institute for Policy Research (IPR)
Northwestern University
- 2016 – Present Preceptor
Northwestern University Interdepartmental Neuroscience (NUIN)
Northwestern University
- 2017-Present Co-Director (with Molly Losh)
Institute for Innovations in Developmental Sciences (DevSci), Training Core
Northwestern University
- 2015-2019 Adjunct Professor
University of Colorado at Boulder
Department of Psychology and Neuroscience
- 2010 – 2015 Assistant Professor
University of Colorado at Boulder
Department of Psychology and Neuroscience
- 2010 – 2015 Faculty Member
University of Colorado at Boulder
Center for Neuroscience

Appointed Editorial Positions

Associate Editor:

2019-present *Journal of Psychopathology and Clinical Science* (formally *Journal of Abnormal Psychology*)

Review Editor:

2020-present *Schizophrenia Bulletin*

Consulting Editor:

2020-present *Psychological Review*
2014-2019 *Journal of Abnormal Psychology*
2017-2019 *Schizophrenia Bulletin*

Guest Editor:

Schizophrenia Research, Special Section (2020): Embracing heterogeneity creates new opportunities for understanding and treating those at clinical high-risk for psychosis (co-editor Jean Addington)

Schizophrenia Bulletin, Special Issue (2019): Motor Development Collection

Schizophrenia Research, Special Issue (2018): The biological stress system in schizophrenia (co-editor Elaine Walker)

Journal of Ethics in Mental Health, Special Issue (2018): Prevention and detection of serious mental illness: the Ethics of Prediction

Ad Hoc Reviewer:

Journal of the American Academy of Child and Adolescent Psychiatry

Research Experience

- 2010-Present Director
Adolescent Development and Preventive Treatment (ADAPT) Research Program
Lab Website: <http://www.adaptprogram.com>
Northwestern University
Department of Psychology
- 2016-Present Co-Director (with Christine Hooker)
Chicago Early Intervention Network
Northwestern/Rush University Medical Center
- 2008 - 2010 Postdoctoral Research Fellow
Training in Clinical Research in Schizophrenia and Mood Disorders
University of California Los Angeles
Department of Psychology
Mentors: Tyrone, Cannon, Ph.D. and Keith Nuechterlein, Ph.D.
- 2007 - 2010 Center for the Assessment and Prevention of Prodromal States (CAPPS)
University of California Los Angeles
Department of Psychiatry and Biobehavioral Sciences
Advisors: Tyrone Cannon, Ph.D., Carrie Bearden, Ph.D.
- 2006 - 2007 Neurological Soft-Signs - Psychotic Disorders
Department of Veterans Affairs Atlanta, Medical Center
Advisor: Erica Duncan, Ph.D.
- 2002 - 2008 Adolescent Neurodevelopment and Psychopathology

Emory University
Mentor: Elaine Walker, Ph.D.

2000 - 2002 Aftercare Program, First-Onset Schizophrenia Longitudinal Study
University of California Los Angeles
Neuropsychiatric Institute (NPI)
Advisors: Kenneth Subotnik, Ph.D., Keith Nuechterlein, Ph.D.

Research Funding, Intramural/Extramural Support

A. Active

National Institute of Mental Health 1R01MH112545-01
2/3 Community psychosis risk screening: An instrument development study
Principal Investigator: Vijay Mittal, Lauren Ellman, Jason Schiffman
Project Period: 7/2017-7/2022
Total Direct Costs: \$2,500,000.00
CO-Is: Thomas Olino, Waren Bilker
Goal: This study, including sites in Chicago, Philadelphia, and Baltimore, will recruit 12,000 adolescent and young adult participants with the aim of developing a screening designed to identify non help-seeking community youth who are likely to meet criteria for a psychosis risk syndrome.

National Institute of Mental Health R01 MH118741
An examination of psychomotor disturbance in current and remitted MDD: An RDoC Study
(passed through council, selected for funding, awaiting NOA)
PIs: Stewart Shankman, Vijay Mittal, Sebastian Walther
Total Direct Costs: \$2,500,000
Project Period: 4/1/2019-3/31/2024
Co-Is: Jessica Bernard, Alex Leow
Consultant: Vinod Menon
Goal: Study motor symptoms in depression from RDoC Framework, and develop a mobile platform for utilizing these markers as an early identification/treatment decision informatics system.

National Institute of Mental Health (NIMH) R01 120088
CAPER: Computerized Assessment for Psychosis Risk 1R01MH120088-01A1
Principal Investigators: Jim Gold, Vijay Mittal
Total Direct Costs: \$8,125,402
Project: 4/01/2020-3/30/2025
Site PIs: Jim Gold, Vijay Mittal, Lauren Ellman, Gregory Strauss, Phil Corlett/Scott Woods
Co-Is: Elaine Walker, Steve Silverstein, Albert Powers, Rick Zinbarg, Shou Chen
Goal: To examine the value of including markers sensitive to disease course and amenable to computational approaches and utilize these to develop a new computerized battery for risk assessment of youth at clinical high-risk for psychosis.

National Institute of Mental Health R01MH116039-01A1
Prodromal Inventory for Negative Symptoms: Development and Validation
Principal Investigator: Greg Strauss, Vijay Mittal,
Project: 3/01/2019-11/30/2023
Total Direct Costs: \$2,458,416

Co-Is: Elaine Walker, Brain Kirkpatrick, Bill Horan, Paul Grant, Rick Zinbarg

Goal: To develop a high sensitive inventory for detecting early negative symptomatology in youth at risk for psychotic disorders

Brain Behavior Research Foundation Independent Investigator Award, (NARSAD)

Brain stimulation targeting cerebellar-cortical circuits and verbal working memory in psychosis

Principal Investigator: Vijay Mittal

Project Period: 3/15/2018-3/14/2021

Total Direct Costs: \$100,000

Co-I: Jessica Bernard

Goal: A functional magnetic resonance imaging (fMRI), double-blind cross over study designed to determine if targeted cerebellar brain stimulation will normalize brain activation and behavioral task performance in individuals with schizophrenia performing a verbal working memory task.

National Institute of Mental Health (NIMH) U01 MH124639-01

Psychosis-risk outcomes network: ProNET

Principal Investigators: Scott Woods (Yale), Carrie Bearden (UCLA), John Kane

Site PIs: Vijay Mittal (Northwestern), Fred Sabb (Oregon), William Stone (Harvard, Shanghai), Barbara Cornblatt (Northwell), Diana Perkins (UNC), Kristin Caadenhead (UCSD), , Jean Addington, (Calgary), Daniel Mathalon (UCSF), Monica Calkins/Daniel Wolf (Penn), Cheryl Corcoran, Mt. Sinai, Leslie Horton (Pittsburgh), Jason Schiffman (UMBC), Laruen Ellman, (Temple), Greg Strauss (UGA), Daniel Mamah (Washington University), Jimmy Choi, Godfrey Pearlson (Hartford), , Jai Shah (Montreal), Paolo Fusar-Poli (Kings College, Pavia), Celso Arango (Madrid), Jesus Perez (Cambridge), Nikos Koutsouleris (Munich), Jun Soo Kwon (Seoul).

Co-Is: Stewart Shankman

Proposed Project Period: 9/1/20-8/2025

Total Direct Costs: 55 million (Northwestern Site Directs: 1.24 million)

Goal: Develop a treatment development network capable of examining treatment related biomarkers as well as mapping in-depth clinical outcome measures.

National Institute of Mental Health R21 MH119677

Language features and High-Risk Psychosis Youth

Principal Investigators: Matthew Goldrick, Vijay A Mittal

Project Period: 4/2019-4/30/2021

Total Direct Costs: \$275,000

Goal: Project will examine vocal features from the perspective that they may represent a sign of motor dysfunction in youth at high risk for psychosis. We will use a computational approach to linguistic feature and pattern analysis and follow high-risk youth over time to track course and develop predictive models.

National Institute of Mental Health R21 MH110374

Neural Habituation in Ultra High-Risk Youth

Principal Investigators: Vijay Mittal

Project Period: 4/2017-3/30/2021 (NCE Y2)

Total Direct Costs: \$275,000

Co-Is: Timothy Curran, Robin Nusslock

Consultant: Holly Earls

Goal: This project will examine how neural habituation (i.e., a decrease in neural activation to

repeated stimuli) is related to social processing deficits in ultra high-risk youth (UHR), a group at imminent risk for transitioning to a psychotic disorder. The project utilizes electroencephalography (EEG) to examine whether neural habituation abnormalities in the P100 component (associated with early visual perception), and N170 repetition effect (associated with visual object recognition and learning) are specific to social stimuli (emotional and/or neutral faces) or generalize to non-face objects.

National Institute of Mental Health R21 MH115231

High-Risk Psychosis Youth and Caregivers: Emotion in Interaction

Principal Investigators: Claudia Haase, Vijay A Mittal

Project Period: 9/2017-8/30/2020 (NCE)

Total Direct Costs: \$275,000

Goal: Project will examine adolescents at high-risk for psychosis and caretakers in a dyadic interaction task to evaluate if patterns of aberrant emotional arousal and regulation predict course of illness.

National Institute of Mental Health R21, Supplement

High-Risk Psychosis Youth and Caregivers: Emotion in Interaction

PIs: Haase, Mittal

Start Date: Rolling

Total Direct Costs: \$30,000

Goal: To evaluate interactive variables from pairs of care-taker/youth in the context of clinical course.

National Institute of Mental Health R01

Title: Social Processing Deficits in Remitted Adolescent Depression Dates: 12/9-12/24

PA: PA-18-484

MPI: Corresponding PI: Randy P. Auerbach; PI: Stewart A. Shankman

Co-Investigators: Vijay Mittal; Jürgen Kayser; Laura Mufson; Linda Valeri; Nicholas Allen

Total Direct Costs: 2.5 Million

Goal: examine several modalities of social processing, including a novel eye-tracking gestures social perception task

Substance Abuse and Mental Health Services SAMHSA CHP-R Federal Grant SM-18-012

Community Programs for Outreach and Intervention with Youth and Young Adults at Clinical High Risk for Psychosis

Total Direct Costs: \$1,600,000

PIs: State of Illinois, Thresholds

Project Period: 12/2018-11/2022

Consultant: Mittal, Hooker

Goal: To implement a stepped care model to treatment of prodromal syndromes in the Illinois healthcare system.

C. Current Mentored Awards

NIMH National Research Service Award. NRSA 1F31MH121018-01A1

Neurocorrelates of alterations in facial expressivity in youth at clinical high-risk for psychosis

Tina Gupta 2019-2021

Mentor: Mittal, Haase

Goal: To examine underlying neural circuitry in motor and limbic networks of alterations in facial expressivity in psychosis risk.

NIMH National Research Service Award. NRSA 1F31MH119776-01A1

Cumulative environmental risk exposure in youth at clinical high-risk for psychosis

Teresa Vargas 2019-2022

Mentor: Mittal, McDade

Goal: To examine if stress during different developmental periods influences adult brain dysfunction and psychosis risk.

National Academy of Science, Ford Fellowship

Early life stress and adult brain structure and cognition

PI: Teresa Vargas

Project Period 6/2019-5/2022

Mentor: Vijay Mittal

Goal: To examine how early experience shape brain development and influence the way people interact with the world they live in.

Canadian Institutes of Health Research (CIHR), Doctoral Foreign Study Award (DFSA)

Cortical Midline Structures and Self-Reflection in youth at ultra-high risk for psychosis

PI: Raffles Cowan

Dates: 9/2017-8/2020

Mentors: Dan McAdams, Vijay Mittal

Goal: To use narrative interviewing and resting stage imaging methods to understand aberrant self-reflection in high-risk youth.

Brain and Behavior Research Foundation, NARSAD Young Investigator Award

Emotion, Mental Health, and Epigenetic clock in high-risk caregivers

Principle Investigator: Claudia Haase

Project Period: 12/2017-11/19

Total Direct Costs: \$60,000

Goal: To determine how negative emotion during dyadic interaction predicts accelerated epigenetic aging in caregivers of youth at risk for psychosis.

Sponsors: Mittal, Alexander

Brain and Behavior Research Foundation, NARSAD Young Investigator Award

Elucidating the Role of Abnormal Motor Resonance in Social Cognition Deficits in Schizophrenia

PI: Jerilyn Kent

Project Period: 12/2017-11/19

Total Direct Costs: \$60,000

Sponsors: Scott Sponheim

Mentoring Collaborator: Vijay Mittal

NIMH National Research Service Award. F31MH123121 decisions)

The Neural Mechanisms of Motor Dysfunction in Clinical High-Risk Youth

Juston Osborne 2020-2022

Mentor: Mittal

Goal: To examine motor psychophysiology (e.g., LRP, CNV) and develop biomarkers in CHR youth.

D. Under Review

National Institute of Mental Health R01

Emotion in Marriage and Cognitive Aging

Principal Investigator: Claudia M. Haase

Project Period: 9/1/2020-8/31/2025

Total Direct Costs: \$ TBD (ca. \$2,500,000)

Goal: To determine how emotions in married couples contribute to cognitive function through cardiovascular and brain health pathways in late life

E. Completed Research Support

Northwestern Weinberg College Research and Innovation Grant W Award

Using motor control disruptions in speech to predict risk for psychotic disorders

Direct Costs: \$35,000

Project Period: 9/2017-8/2018

Goal: To develop software for analyzing speech patterns indicating increased risk for psychosis.

National Institute of Mental Health Translational Research for the Development of Novel Interventions for Mental Disorders: R21/R33 Award, MH103231

Exercise and markers of medial temporal health in youth at ultra high-risk for psychosis

Principal Investigators: Vijay Mittal, Ph.D., Angela Bryan

Project Period: 07/2014-6/2020 (NCE)

Total Direct Costs: \$850,000

Co-I: Randal Ross, M.D.

Goal: To test feasibility and to design a pilot controlled trial investigation of cardiovascular exercise and medial temporal neurogenesis and cognitive/functioning remediation in youth at high-risk for schizophrenia.

National Institute of Health, R01MH094650

Project Title: Motor Measures of Basal Ganglia and Cerebellar Circuit Dysfunction in Psychosis

Principal Investigator: Vijay A. Mittal, Ph.D.

Project Period: 06/01/2011-02/29/2018

Total Direct Cost: \$1,820,544

CO-Is: Randal Ross, M.D., Marie Banich Ph.D.

Goal: Investigate spontaneous movement abnormalities as a potential biomarker for white matter and grey matter development components of frontal-subcortical circuits, in adolescents at high-risk for psychosis.

Northwestern Data Science Initiative Award

Automated analysis of vocal characteristics for early detection of schizophrenia

Total Award: \$30,000

06/2016-05/2017

P.Is Matthew Goldrick, Emily Cibelli, Vijay Mittal

Goal: To Evaluate early motor dysfunction in speech signifying risk for psychosis.

Buffett Institute for Global Study, Scholars in Israel Collaboration

P.Is Matthew Goldrick, Vijay Mittal, Emily Cibelli, Joseph Keshet, Yossi Adi, Jennifer Cole
Date: 06/2017-5/2017
Total Award: \$25,000
A Multidisciplinary Approach to Predicting Schizophrenia
Goal: To use machine learning to evaluate movement markers of risk for psychosis.

Intermountain Neuroimaging Consortium (INC) Pilot Award
Default Mode Network Hyperconnectivity Across the Schizophrenia Spectrum
PI: Mittal and Turner
Project Period: 2012-2013
Goal: To examine potential hyperconnectivity patterns across the psychosis spectrum

National Institute of Health (NIH) Clinical Research Loan Repayment Award (2009-2012)
Dyskinetic Movements and Glucocorticoids in Adolescents At-Risk for Psychosis
Principal Investigator: Vijay A. Mittal, Ph.D.
NIH- L30 MH087258:01-02
Goal: This project is designed to investigate the roles between stress reactivity, reciprocal dopamine activation, and potentially consequent neuromotor dysfunction

National Institute of Mental Health (NIMH) Career Development Award: 08/01/07-07/31/12
The Neurobiological Basis of Prodromal States and Psychosis in Adolescence
Principal Investigator: Melita Daley, M.D.
NIMH 5K23MH79028-3
Goal: Longitudinal ¹H MRSI/MRI study of the brain in prodromal psychosis and schizophrenia in adolescents and young adults.
Role: Biostatistician, 2.5 months

National Alliance for Research in Schizophrenia and Affective Disorders (NARSAD). Young Investigator Award 07/01/07 – 06/30/09
The Neurobiological Basis of Early Phases of Schizophrenia and Bipolar Disorder in Adolescence
Principal Investigator: Melita Daley, M.D.
Goal: Longitudinal structural MRI study of the medial temporal lobe, basal ganglia structures and the prefrontal cortex in adolescents and young adults with schizophrenia and bipolar disorder.
Role: Biostatistician, 3 months.

National Institute of Mental Health (NIMH) National Research Service Award (NRSA)/Training
Principal Investigator: Keith Nuechterlein, Ph.D.
NIMH NRSA T32 MH14584-33
University of California Los Angeles, Department of Psychology
Role: Postdoctoral Fellow

National Science Foundation (NSF) GK12 Program
Problems and Research in Integrating Science and Math (PRISM)
Awards #DGE0536941 and #DGE0231900
Principal Investigator: Patricia Marsteller, Ph.D.
Role: Research Fellow, Teacher

F. Completed Mentored Award

Brain Behavior Research Foundation (formally NARSAD): Young Investigator Award
Cerebello-Prefrontal Involvement in Error Processing and Rule Learning in Youth at Ultra High-Risk for Psychosis

Project Period: 1/1/2015-1/1/2017

Total Direct Costs: \$60,000

P.I. Jessica Bernard, Ph.D.

Mentor: Vijay Mittal, Ph.D.

Co Mentor: Banich

National Research Service Award (NRSA), 1F31MH100821-01A1

The neural basis of social cognition in adolescence

10/01/2013-9/30/2016

P.I. Andrea Pelletier, M.A.

Mentor: Vijay Mittal, Ph.D.

Co-Mentors: Tor Wager, Jessica Turner

National Research Service Award (NRSA) 1F32MH102898-01

Cerebellar contributions to disease course in youth at high-risk of psychosis

10/01/2013-9/30/2015

P.I. Jessica Bernard, Ph.D.

Mentor: Vijay Mittal, Ph.D.

Co-Mentor: Marie Banich

C. Conference and Academic Symposia

Symposium: Translating the biomarkers of schizophrenia to clinical settings: a precision psychiatry approach

Translational applications of biomarker research for clinical high-risk youth
SIRS, Virtual 2021

Speaker: Mittal, Waltz, Lewandowski and Carpenter (Discussant)

Chair: Chan

Symposium: Alterations of RDoC's Sensorimotor Domain in Major Depression: Behavior, Circuits and Clinical Correlates

Biological Psychiatry, San Diego 2021

Chairs: Mittal Shankman

RDoC Workshop: 10 Years of RDoC

Adolescent Development, the sensorimotor domain and translational clinical psych science.

Speakers: Mittal, Kujawa, McNamarra, Cuthbert, Morris

Host: APS & NIMH

Grand Rounds: Psychosis risk and motor symptoms

Ohio State Psychiatry, July 2021

Host: N. Breitborde

Symposium: FSC circuits across serious mental illness

APS, March 2020

Chairs: Mittal, Nusslock

Symposium: Stress and developmental risk for psychopathology: From epigenetics to brain circuits

Biological Psychiatry, Chicago 2019

Chairs: Mittal, Belger

Symposium: Psychomotor dysfunction in major depression: a multi-method symposium on this understudied aspect of major depression.

Biological Psychiatry, Chicago 2019

Speakers: Mittal, Bernard, Walther, Leow

Chairs: Shankman

Invited: Multifinality, Biotypes, and Precision Medicine in Psychosis Risk Youth
Association for Psychological Science (APS)
Washington DC, 2019

Symposium: Motor dysfunction as a research domain in mental disorders: advances, challenges, and the future

Motor dysfunction and the psychosis prodrome
World Congress of Biological Psychiatry, Vancouver 2019
Chairs: Vijay Mittal, Sebastian Walther
Speakers: Vijay Mittal, Sebastian Walther, Jeff Dasdalakis, Christoph Mulert

Symposium: Motor dysfunction as a research domain in mental disorders: advances, challenges, and the future

Motor dysfunction and the psychosis prodrome
World Congress of Biological Psychiatry, Vancouver 2019
Speakers: Vijay Mittal, Dusan, Hirjak, Katharina Kubera, Christian Wolf

Symposium: Quantification of Behavior for Mental Health Using Digital Technology
Society for Research in Psychopathology, 2018

Indianapolis, IN
Presenters: Laura Germaine, Laura Tully
Discussant: Vijay Mittal

Symposium: Identification of Risk Factors for Psychosis From In-Utero Through Young Adulthood, Patterns Abnormal Motor Behavior in Clinical High-Risk Individuals Indicate Distinct Etiological Pathways for Psychosis

Society for Research in Psychopathology, 2018
Indianapolis, IN
Co-Presenters: Lauren Ellman, Nicole Karcher, Vijay Mittal
Discussant: Deanna Barch

Symposium: Novel developments in psychosis screening and early intervention
Society for International Research in Schizophrenia, 2019

Florence, Italy
Co-Presenters: Cheryl Corcoran, Jim Waltz, Pat McGorry, Vijay Mittal

Invited Grand Rounds: Psychosis Risk: Biomarkers and Treatment Development
University of Illinois Chicago, Psychiatry, May 19 2018

Host: Ed Cook

Invited Talk: Psychosis Risk and Policy: Basic Science to Public Health
Institute for Policy Research, Northwestern University, Fall 2017

Vijay Mittal

Invited Talk: Lake Forest College,

Current Advances in Psychology Colloquium, Winter 2018

Lecture on psychosis research for neuroscience and psychology undergraduate majors.

Host: Matt Kelley

Symposium: Aerobic exercise across the phases of schizophrenia: Neural, cognitive, symptomatic and functional impact

Society for Research in Psychopathology, Denver 2017

Chair: Keith Nuechterlein, Speakers: Mittal, Joseph Ventura, David Kimhy

Symposium: Motor dysfunction in schizophrenia disorders and beyond: advances, challenges, and future directions

World Congress of Psychiatry, 2017

Berlin

Co-Presenters: Dusan Hirjak, Vijay Mittal (*Tina Gupta), Robert Christian Wolf, Sebastian Walther

Symposium: Social interaction challenges: the nonverbal communication deficits in psychosis

World Congress of Psychiatry, 2017

Berlin

Co-Presenters: Sebastian Walther, Vijay Mittal (*Tina Gupta), Mary Lavelle, Wiepke Cahn, Rose McCabe

Invited Departmental Colloquium: Translational approaches to clinical science for high-risk adolescents

Purdue University

Host: Daniel Foti

Invited Symposium:

Early Detection and Targeted Intervention for Youth at Risk for Serious Psychopathology:

Translating Basic Research to Practical Implementation

Brookstone Conference: Northwestern University

Meeting the Challenges of Emerging Mental Illness, 2016

Speakers: Mittal, Reinecke, Goulding, Smoth, Cicchetti, Klodnick, Fagan, Cronenwett, McGorry

Invited Address: Markers of Basal Ganglia and Cerebellar Dysfunction in Early Psychosis

Johns Hopkins University, 2017

Baltimore

Invited Address: Early Career Award Address: Why motor behaviors are important for understanding, detecting, and treating psychotic disorders

Society for Research in Psychopathology 2016

Baltimore

Symposium: Gesture Behavior in Psychotic Illness

Society for International Biological Psychiatry, 2017

Copenhagen

Co-Presenters: Sohee Park, Sebastian Walther, Ben Straube, Vijay Mittal (*Derek Dean)

Symposium: Cerebellar Abnormalities Across Psychiatric Illness

Society of Biological Psychiatry (SOBP), 2016

Atlanta, GA

Co-Presenters: Deanna Barch, William Hetrick, Jessica Bernard

Symposium: Back to the Hippocampus: Investigating Hippocampal Abnormalities in Early Psychosis

Society for International Research in Schizophrenia, 2016

Florence, Italy

Co-Presenters: Mary Cannon, Anthony David, Ana Calvo

Symposium: Movement Disorders: A Non-Mental Core Symptom of Psychotic Disorders and the Importance of Instrumental Screening

Society for International Research in Schizophrenia, 2016

Florence, Italy

Co-Presenters: Sebastian Walther, Peter Van Harten, Jim Van Os

Grand Rounds: Novel treatments in the psychosis Risk Period

Northwestern Psychiatry, 2015

Northwestern University

Invited Presentation: Hippocampal shape changes in the psychosis prodrome; normative and pathological developmental influences.

Department of Psychology, 2015

University of Illinois, Chicago

Invited Presentation: Translational Clinical Science in the Psychosis Risk Period

Department of Psychology, 2014

Northwestern University

Symposium Presentation: Verbal and nonverbal communication deficits in schizophrenia: Gesture Mismatch and lexical retrieval gestures in the psychosis prodrome

European Congress of Schizophrenia Research

Berne, Germany

2015

Speakers: Mittal (*Derek Dean), Walther, Kircher, Straube

Symposium Presentation: Translational Clinical Science in the Psychosis Prodrome

Early Career Symposium

Society for Research in Psychopathology, 2014

Evanston, IL

Speakers: Mittal, Hicks, Sellbom, LeMoult

Invited Colloquium: Translational Science in the Psychosis Prodrome

Emory University

Atlanta, GA, 2014

Speaker: Mittal

Invited Presentation: Paper Session: Schizophrenia

Society for Research in Psychopathology (SRP)

Oakland, CA 2013

Speakers: Levy, Orr, Wynn, Keane, Lewandowski

Chair: Vijay Mittal

Symposium: Mittal, V.A. Movement Abnormalities Across the Psychosis Continuum, A Tribute to Elaine Walker.

Association for Psychological Science (APS)

Washington DC, 2013

Co-Presenters: Michael Green, M.D., Deborah Walder, Ph.D., Elaine Walker, Ph.D.

Invited Presentation: Frontal subcortical dysfunction and the progression of dyskinesia in adolescents at ultra-high risk for psychosis.

Mind Research Network (MRN)

New Mexico, 2013

Invited Talk: Vulnerability characteristics, the motor system, and high-risk youth

Eastern Psychological Association (EPA)

New York, 2013

Symposium: Spontaneous Dyskinesia Across a Psychosis Continuum

International Early Psychosis Association (IEPA)

San Francisco, 2012

Speakers: Vijay Mittal, Danny Koren, Alana Scully, Larry Seidman, Helene Barder, Christine Hooker

Chair: Larry Seidman, Barbara Cornblatt

Invited Presentation: White-matter correlates of abnormal motor behaviors in psychosis

University of Indiana Bloomington (2012)

Clinical Science Colloquium

Hosts: William Hetrick, Jerilyn Kent

Grand Rounds: Movement Abnormalities and Prodromal Research

University of Colorado Denver, Anschutz Medical Campus

Denver, Colorado, 2011

Host: Robert Freedman, MD (Chair of Psychiatry)

Symposium: Brains Award Address: Adolescent neural development and risk for psychosis

Society for Neuroscience

Washington DC, 2011

Chairs: Thomas Insel, Kathleen Anderson

Symposium. Neurodevelopmental precursors to schizophrenia: Evidence of risk from womb to adolescence.

Society for Research in Psychopathology

Seattle, Washington, 2010

Co-presenters: Elaine Walker, Vijay A. Mittal, Lauren Ellman, Scott Schobel

Invited Speaker. Biomarkers and Adolescent Maturation in the Prodromal Stage.

Psychology Department Colloquia,

State University of New York, Stony Brook (November 2009), University of Iowa (January 2010), University of South Carolina, (November 2009), University of Colorado Boulder (Feb, 2009), University of Missouri (December, 2009)

Invited Speaker. Community based mental health and early psychosis

29th Nordic Congress of Psychiatry

Stockholm Sweden, (September, 2009)

Speakers: Vijay A Mittal, Erik Simonsen, Lena Flyckt

Chair: Nils Linefors, Christina Hultman

Invited Speaker for Live teleconference and web-cast for Schizophrenia E-Journal Club.

Longitudinal progression of movement abnormalities in relation to psychotic symptoms in adolescents at high risk for schizophrenia.

Live teleconference and web-cast for Schizophrenia E-Journal Club (August, 2008).

Network for Continuing Medical Education (NCME):

Moderator: Dr. John M. Kane

Clinical Neuroscience Rounds. Putative markers of biological risk and schizophrenia.

University of California Los Angeles, 2008

Department of Psychiatry and Biobehavioral Sciences

Instructors: Melita Daley, MD, Tyrone Cannon, Ph.D.

Schizophrenia Scholar Consortium. Motor function and psychotic disorders.

University of California Los Angeles, 2008

Department of Psychology.

Instructor: Constance Hammen Ph.D., Cindy Yee-Bradbury, Ph.D., Keith Nuechterlein, Ph.D.

D. Community Lectures

TEDx NU

Can Exercise combat emerging mental illness?

Spring 21

Writers Theatre

Nature vs. Nurture Presentation

Spring 2019

Compass, Northbrook

Translating Science to Practice in the Psychosis Risk State

August 2017

Compass, Chicago

Translating Science to Practice in the Psychosis Risk State

July 2017

North shore Community Hospital Grand Rounds

Early Detection and targeted intervention for individuals at high-risk for schizophrenia

March 2017

Host: Fred Miller MD

Department of Child and Family Service (DCFS)

Department of Recruitment & Resources

ADAPT Program

November 2016

Thresholds

Psychosis Risk Syndromes

March 2017

Transition Action Network

Recognizing signs and symptoms/helping foster transition from high-school

Co-Presenters: Marc Fagan

December 2016

Loyola University Clinic

Psychosis Risk Syndromes

University Clinic Rounds

Host: Daniel-De Boer

October 2016

Northwestern University Active Minds

Stigma Panel

Evanston

Co-Presenters: Robin Nusslock, Katie Sanford, Bria Royal

Spring 2016

Community Open House: Behavioral Health Resources for Families

University of Colorado

ADAPT services and Schizophrenia

Boulder, CO 2013

Co-Presenters: Chhabildas, Schneck, Dimidjian, Hepburn, Taylor

Symposium: Your Brain on Art: The Brain and Music

Boulder Museum of Contemporary Art (BMoCA)

Boulder Colorado, 2013

Co-Presenters: Vijay Mittal, Scott O'Neil, Otis Taylor

Community Awareness of Ultra High-Risk Syndromes for Schizophrenia

Boulder High School

Fairview High School

April 13

Symposium: Your Brain on Art: Neuroaesthetics

Boulder Museum of Contemporary Art (BMoCA)

Boulder Colorado, 2012

Co-Presenters: Vijay Mittal, William Stoehr, Lew Harvey

Invited Talk: Early recognition of a schizophrenia risk-syndrome
Denver Health School Based Health Centers (school based mental health therapists in DPS)
Denver, Colorado, 2012
Host: Jenifer Koch

Invited Talk: The schizophrenia prodrome and CU Boulder's ADAPT program
Denver Health, Adolescent in-patient unit
Denver, Colorado, 2011
Host: Jonathan Kusumi (Director of Inpatient Unit)

Invited Talk: The schizophrenia Prodrome and CU Boulder's ADAPT program
Boulder Community Hospital, Adult in-patient unit
Boulder, Colorado, 2011
Host: Peggy Caspari (Director of Inpatient Unit)

Symposium: Your Brain on Art: The neuroscience of improvisation
Boulder Museum of Contemporary Art (BMoCA)
Boulder Colorado, 2011
Co-Presenters: Vijay Mittal, William Stoehr, Richard Cummings, Robert Sher-Machherndl

E. Other

Staff Research Talk- The ADAPT lab Research Program
University of Colorado Boulder
January 2013

Conference Participation

2018	Society for Research in Psychopathology
2018	Society for Biological Psychiatry, Manhattan
2018	Society for International Schizophrenia Research, Florence
2017	World Congress of Psychiatry, Berlin Germany
2017	World Conference of Biological Psychiatry, Copenhagen

2007	Society for Research in Psychopathology, Iowa City, Iowa.
2006	Society for Research in Psychopathology, San Diego, California
2005	Georgia Psychological Association; Atlanta, Georgia
2004	Society for Research in Psychopathology; St. Louis, Missouri
2003	Association for Psychological Science; Atlanta, Georgia
2003	Society for Research in Psychopathology; Montreal, Canada

Abstracts from Conference Poster Presentations:

*Gupta, T., Haase, C.M., Strauss, G.P., Cohen, A.S., Ricard, J.R., Mittal, V.A. (2020, April). Altered emotion expression in psychosis risk: Determining the promise of ultra-thin slicing and comparing human and automated coding methods. Poster presented at the Society for Affective Science, San Francisco, CA.

Stephens, J.E., Yee, C. I., Mittal, V.A., & Haase, C.M. (2020, April). Emotions in conflict: A behavioral analysis of adolescent-parent conflict conversations. Poster presented at the Annual Convention for the Society for Affective Science, San Francisco, CA.

Anaya, I. C., Stephens, J. E., Mittal, V. A., Haase, C. M. (2020, April). Adolescent's Emotional Experiences During Adolescent-Parent Interactions and Links with Dispositional Affect. Poster presented at the Society for Affective Science conference, San Francisco, CA.

Rodosky, S. E., Stephens, J. E., Gupta, T., Mittal, V. A., & Haase, C. M. (2020, April). Not Expressing Emotions and Links with Anxiety and Depression: A Laboratory-Based Study of Adolescent-Caregiver Conversations. Poster presented at the Society for Affective Science conference, San Francisco, CA.

Rompilla, D. B., Jr., Stephens, J. E., Hittner, E. F., Mittal, V. A., & Haase, C. M. (2020, April). Becoming Happy while Sad: Executive Functioning and Emotion Regulation in Older Adults. Poster presented at the Society for Affective Science conference, Boston, MA. (2019, April) Becoming Happy while Sad: Executive Functioning and Emotion Regulation in Older Adults. Poster presented at the Society for Affective Science conference, San Francisco, CA.

*Ricard, J.R., Gupta, T., Hittner, E.F., Haase, C.M., Mittal, V.A. (2020, April). *Trauma history and facial expressions of emotions in individuals at clinical high risk for psychosis*. Poster presented at Society for Affective Science Conference. San Francisco, CA.

*Hitczenko, K., Segal, Y., Fuchs, T.S., Goldrick, M., Keshet, J., & Mittal, V.A. (2020). Diadochokinetic speech in individuals at clinical high risk for schizophrenia. Poster to be presented at the 179th Meeting of the Acoustical Society of America, Chicago, Illinois.

- *Damme, K.S.F., Ristanovic, I., & Mittal, V.A. (2019) The Impact of Cannabis Use on Resting-State Networks in the Psychosis Risk Period: Cross-Sectional and Longitudinal Implications of Use. Society of Research for Psychopathology Annual Meeting, Buffalo, New York.
- *Damme, K. S. F. & Mittal, V. A. (2019). Distinct and opposite Profiles of Connectivity during Self-Reference Task and Rest in Youth at Clinical High-Risk for Psychosis. Society for Biological Psychiatry, Chicago, Illinois.
- *Damme, K.S.F. & Mittal, V.A. (2019). Clinical High Risk for Psychosis Show Stable Global Functional and Nodal Structural Disconnectivity, *Organization on Human Brain Mapping, Rome, Italy*.
- *Damme, K.S.F., Ristanovic, I., & Mittal, V.A. (2019). The Impact of Cannabis Use on Resting-State Networks in the Psychosis Risk Period: Cross-Sectional and Longitudinal Implications of Use. *Society of Research for Psychopathology Annual Meeting, Buffalo, New York*.
- *Gupta, T., Damme, K.S.F., Haase, C.M., Mittal, V.A. (2019) Genuine and nongenuine smiles in adolescents and young adults at clinical high-risk for psychosis. *Society of Biological Psychiatry Annual Meeting, Chicago, Illinois*.
- *Gupta, T., Dean, D.J., Kelley, N.J., Bernard, J.A., Ristanovic, I., Mittal, V.A. (2019). Cerebellar tDCS improves procedural learning in non-clinical psychosis. *Organization for Human Brain Mapping Annual Meeting, Rome, Italy*.
- *Gupta, T., Haase, C.M., Strauss, G.P., Cohen, A.S., Ricard, J.R., Mittal, V.A. (2019). Altered emotion expression in psychosis risk: Determining the promise of thin slicing and comparing human and automated coding methods. *Poster to be presented at Society for Research in Psychopathology Annual Meeting, Buffalo, New York*.
- *Osborne, K.J., Dean, D.J., Gupta, T., Ristanovic, I., Vargas, T., Walther, S., Mittal, V.A (June 2019). Motor behavior subtypes and risk profiles in clinical high-risk individuals. *Talk to be given at the 14th World Congress of Biological Psychiatry, Vancouver, BC*.
- *Osborne, K.J., Gupta, T., Mittal, V.A (June 2019). Brain stimulation and motor learning in a psychosis continuum population. *Talk to be given at the 14th World Congress of Biological Psychiatry, Vancouver, BC*.
- *Osborne, K.J., Damme, D.S.F., Gupta, T., Dean, D.J., Bernard, J.A., Mittal, V.A (May 2019). Timing dysfunction and cerebellar network abnormalities in youth at clinical high-risk for psychosis. *Poster presented at the 74th annual meeting of the Society of Biological Psychiatry, Chicago, IL*.
- *Osborne, K.J., Vargas, T., Mittal, V.A, (2019). Early childhood social communication deficits in youth at clinical high-risk for psychosis: Associations with functioning and risk. *Poster to be presented at the annual meeting of the Society for Research in Psychopathology, Buffalo, NY*.
- *Ricard, J.R., Gupta, T., Mittal, V.A., Haase, C.M. (2019, March). Signs of psychosis risk: Thin slices of altered emotional behavior in youth at clinical high risk for psychosis. *Poster presentation given at Society for Affective Science. Boston, MA*.

- *Ricard, J.R., Gupta, T., Haase, C.M., Mittal, V.A. (2019, September). Facial expressions of emotions and life stress in adolescents at clinical high risk for psychosis. *Poster to be presented at 33rd Annual Meeting of the Society for Research in Psychopathology Annual Meeting, Buffalo, New York.*
- *Rowghani, K., Gupta, T., Mittal, V.A. (2019, May). Facial Expressivity in Non-Clinical Psychosis. *Department of Psychology Undergraduate Poster Session, Evanston, IL.*
- *Vargas, T., Damme, K.S. F., Hooker, C.I., Gupta, T., Cowan, H.R., Mittal, V.A. (2019). Differentiating Implicit and Explicit Theory of Mind and Associated Neural Networks in Youth at Clinical High Risk (CHR) for Psychosis. *Organization for Human Brain Mapping Annual Meeting, Rome, Italy.*
- *Zou, D. S., Conley, R., Mittal, V. A. (2019) Correlates of facial emotion recognition task performance in healthy youth. *Poster presented at Anxiety and Depression Association of America, Chicago, IL.*
- *Lång, U., Mittal, V., Schiffman, J., & Therman, S. (2019). F66 Measurement invariance of psychoticlike experiences as measured with the PQ-B in adolescent and adult population samples. *Schizophrenia Bulletin, 45*(Supplement_2), S280-S280.
- *Zou, D. S., Conley, R., Mittal, V. A. (2019) Social responsiveness and psychosis-risk: a multi-perspective approach. *Poster to be presented at Society for Research in Psychopathology Annual Meeting, Buffalo, NY.*
- *Cowan, H. R., & Mittal, V. A. (2018). Self-concept and psychotic-like experiences. *Poster presented at Society for Research in Psychopathology, Indianapolis, IN.*
- *Dean, D.J., Bernard, J.A., Mittal, V. A. (2018). Motor Learning during an isometric force grip task in youth at clinical high risk for psychosis: An FMRI study. *Poster presented at Society for Research in Psychopathology, Indianapolis, IN.*
- *Damme, K.S.F., Gupta, T., Vargas, T., Mittal, V. A. (2018). Stable Structural Connectivity Networks Differences in the Clinical High Risk for Psychosis during the Psychosis Risk Period. *Society of Research for Psychopathology Annual Meeting, Indianapolis, Indiana.*
- *Gupta, T., Rowghani, K.K., Ricard, J.R., Haase, C.M., Mittal, V.A (2018). Alterations in facial expressivity in youth at clinical high-risk for psychosis. *Society for Research in Psychopathology Annual Meeting, Indianapolis, Indiana.*
- *Ristanovic, I., Zou, D. S., Conley, R., Mittal, V. A. (2018). Gonadocorticoids as Neuroprotective Factors in Population at Clinical High Risk for Psychosis. *Poster presented at Society for Research in Psychopathology, Indianapolis, IN.*

Experience as a Research Mentor

Mittal Laboratory Graduate Students Masters and Dissertation Projects:

2020- Dissertation Proposal- Katia Zalkind- Semantic Priming and Psychosis Risk

2020- Dissertation Proposal- Tina Gupta- Emotional blunting and youth at risk for psychosis

2020- Dissertation Proposal- Raffles Cowan- Self identity, narrative, and risk for psychotic disorders

2019- Masters Advisor Ivanka Ristanovic, Life-event stress and risk for psychosis across adolescence.

2018 - Masters Advisor, Juston Osborn, Temporal bisection, cerebellar dysfunction and psychosis risk.

2018- Masters Advisor, Vargas, Hippocampal subfields across psychosis risk and schizophrenia stages.

2018- Dissertation Advisor, Emily Carol, Longitudinal evaluations of stress systems in youth at risk for developing psychotic disorders

2018- Dissertation Advisor, Derek Dean, Movement Abnormalities, Frontal-subcortical Structure and Function, and Youth at Risk for Psychosis

2017- Masters Advisor, Tina Gupta, Brain stimulation and motor learning in psychosis risk individuals.

2017- Dissertation Advisor, Andrea Pelletier, Do youth at risk for psychosis like being liked? An fMRI investigation of social reward processing

2015- Masters Advisor for Emily Carol (Mentor: Vijay Mittal): Cortisol, self-concept and expressed emotion in high-risk youth.

2014- Masters Advisor for Derek Dean (Mentor: Vijay Mittal): Cerebellar and Striatal Contributions to Velocity Scaling Deficits in Youth at Ultra High-Risk for Psychosis: A Resting-State Approach

2012/2013- Dissertation for Jessica Lunsford (Mentor: Vijay Mittal): Sleep Dysfunction in Adolescents at High-Risk for Psychosis

2012/2013- Masters Advisor for Andrea Pelletier (Mentor: Vijay Mittal): The Neural Basis of Social Processing Impairments in Adolescents at High Clinical Risk for Psychotic Disorders

Current Positions for Mittal Students that have Graduated:

Joseph Orr (Postdoctoral Scholar in my lab 2012-2015): Assistant Professor, Texas A&M, Department of Psychology

Jessica Bernard (Postdoctoral Scholar in my lab 2013-2015): Assistant Professor, Texas A&M, Department of Psychology

Jessica Lunsford-Avery (Graduate Student in my lab 2011-13): Assistant Professor, Duke University, Department of Psychiatry

Derek Dean (Graduate Student in my lab 2012-present): Postdoctoral Student, Vanderbilt

Emily Carol (Graduate Student in my lab 2013-present): Postdoctoral Student, McLean/Harvard

Andrea Pelletier-Baldelli (Graduate Student in my lab 2011-present): Postdoctoral student UNC Chapel Hill

Awards for Postdoctoral Students:

SIRS travel award Kate Damme, 2020

Northwestern University NICS Data Science Initiative Award, Emily Cibelli, 2016

Brain and Behavior Research Foundation, NARSAD Young Investigator Award, Jessica Bernard, 2014

ICOSR Young Investigator: Jessica Bernard, 2015

NIMH National Research Service Award: Jessica Bernard, 2013-2015

Awards for Graduate Students:

SIRS Early Career Award, Franchesca Khuney, 2021

T32 Fellowship, Training Program in Neuroscience of Human Cognition, Juston Osborne, 2019-2020

NRSA Tina Gupta 2019-2022

NRSA Teresa Vargas 2019-2022

SNAP talk at SRP, Teresa Vargas, 2019

ERP Camp, Juston Osborne, 2019

Ford Fellowship, National Academy of Science, Teresa Vargas, 2019

DevSci Pilot Funds Award, Jaqueline Stephens, 2018

DevSci Pilot Funds Award, Teresa Vargas, 2018

Dosier/Muenzinger Award for Translational Research, Emily Carol, 2018

University of Michigan, Neuroimaging training fellowship, Tina Gupta, 2018

T32 Fellowship, Training Program in Neuroscience of Human Cognition, Tina Gupta, 2017-2019

Beverly Sears Graduate D, Emily Carol, 2017

Human Brain Mapping Abstract Merit Award: Andrea Pelletier, 2016

Society, Biology, and Health Cluster Fellowship, Northwestern University: Tina Gupta 2016

Peter G. Ossorio Award, CU Boulder: Emily Carol, 2016

Human Brain Mapping Abstract Merit Award: Derek Dean, 2015

NIMH National Research Service Award: Andrea Pelletier, 2013-2016

Awards for Mittal Lab Undergraduate Students:

Carson Knoer, URG AY 19/20, Summer 2020

Paia Amelio URAP Summer 2020

Jordyn Ricard, Summer URG 19/20

Jordyn Ricard, Top Social Science Presentation at NU Undergraduate Research Exposition, 2020

Amy Lieberman, Accepted to NIMH IRTA 2018-present (Dickenson)

Defne Cezayirli, Accepted to NIMH IRTA 2019-present (Fedorova)

Carson Knoer, URPA Summer 2019

Jordyn Ricard, Poster Spotlight Award- Society for Affective Sciences (SAS), Winter 19

URG, Alaran Ozsan, 2019, Summer 2019

URG, Defne, Cezayirli, 2019, Summer 2019

Honors in Neuroscience, Defne Cezayirli, 2019

Honors in Psychology, Kim Rowgani, 2019

Honors in Psychology, Alara Ozsan, 2019

Honors in Psychology, J. Maloney, 2018

Honors in Psychology, Amy Lieberman, 2018

Amy Lieberman, Undergraduate research and arts exposition, presentation invitee, Spring 2018

Alara Ozsan, Undergraduate Research Award (URG), 2018/2019

Defne Cezayirli, Undergraduate Research Award (URG), 2018/2019

Kimberly Rowghani, Weinberg College Summer Research Grant, 2017

Amy Lieberman, Undergraduate Research and Arts Exposition Poster, 2017

Grishma Reddy, Undergraduate Research Award (URG), Summer 2017/2018

Amy Lieberman, Undergraduate Research Award (URG), 2017/2018

Isha Bhutada, Undergraduate Research Assistant Program (URAP), 2016/2017

Vicotria Steigerwald, Undergraduate Research Assistant Program (URAP), 2016/2017

Grishma Reddy, Undergraduate Research Assistant Program (URAP), Summer 2016

Jaqueline Maloney, Undergraduate Research Award (URG), Summer 2016; *Fletcher Prize Finalist*

Courtney Russell, 2015, Undergraduate Research Opportunity Program (UROP)

Rae Newberry, 2014, Undergraduate Research Opportunity Program (UROP)

Olivia Russak, 2014, Undergraduate Research Opportunity Program (UROP)

Elise Hague, 2012, Independent Study Award

Kim Kramer, 2011, Undergraduate Research Opportunity Program (UROP)

Northwestern Undergraduate Honors

2020- Jordyn Ricard (Mentor Mittal, Haase)

2020- Sophia Rodesky (Mentor Haase)

2019- Defne Cezayirli (Mentor Mittal)

2019- Kim Rowgani (Mentor Mittal)

2019- Alara Ozsan (Mentor Mittal)

2018- Jacqueline Maloney (Mentor Mittal)

2018- Amy Lieberman (Mentor Mittal)

CU Boulder Honors

2015- Olivia Russak (Mentor: Mittal)

Professional Service

Editorial Service

2019- Present *Journal of Abnormal Psychology*, Associate Editor
2014-2019 *Journal of Abnormal Psychology*, Consulting Editor
2020-Present *Schizophrenia Bulletin*, Managing Editor
2017-2020 *Schizophrenia Bulletin*, Assigned Editor

Professional Societies

2019-Present Executive Board, Society for Research in Psychopathology (SRP)
2018-Present Program Committee, International Early Psychosis Association (IEPA)
2018-Present Program Committee, Society for International Research in Schizophrenia (SIRS)
2016-Present Affiliation Committee Chair, Society for International Research in Schizophrenia (SIRS)
2016-Present Publication Committee, Society for International Research in Schizophrenia (SIRS)
2014-Present Diversity Committee (currently chair; 2019-Present), Society for Research in Psychopathology (SRP)
2011-Present Newsletter Coordinator, Society for Research in Psychopathology (SRP)
2015 International Congress of Schizophrenia Research (ICOSR) Young Investigator mentor
2014 Smadar Levin Award Committee, Society for Research in Psychopathology (SRP)
2012-2013 Conference Program Committee, Society for Research in Psychopathology (SRP)

National Organizations

2018-Present Building roads to inclusion and diversity in graduate education (Bridge Network), Northwestern Site Director

2014-2015 National Alliance for the Mentally Ill (NAMI) on Campus Faculty Advisor for CU Boulder

Northwestern University

2020- Department of Psychology, Committee on Engagement
2020- Department of Psychology, Awards committee chair
2020- Present DevSci Diversity Committee
2018-Present Student Well-being task force
2018-Present Office for Research Limited Submissions Advisory Committee
2017 Faculty Search Committee, Neuroscience, Department of Psychology
2017 Searle Teaching Mentor, Tawny Spinelli
2017-present Training Program in Neuroscience of Human Cognition (T32), Preceptor
2017-Present Institute for Innovations in Developmental Sciences (DevSci) Training Core Co-Director (with Molly Losh, Ph.D. and Craig Garfield M.D.)
2016-Present DevSci, Steering Committee
2016-Present Undergraduate Psychological Association (UPA) Faculty Advisor
2015-Present Diversity Committee, Department of Psychology
- Sneak Peek Director
- Provost grants for Faculty Innovation in Diversity and Equity

Northwestern Invited Graduate Student and Postdoctoral Student Training Lectures:

2017 Society Biology & Health Cluster, interdisciplinary research and job search advice
2016 Graduate Student (PGSC): Career Development Lecture
2016 Postdoctoral Student Consortium: Early Career Advice Lecture

University of Colorado Boulder

2014 Search Committee, Clinical Administrative Staff
2014 Search Committee, Cognitive Neuroscience Faculty
2013-2014 Strategic Planning Committee

2013-2014	Space Committee
2012-2014	Undergraduate Honors Program Committee
2012	Search Committee, Clinical Faculty
2012	Graduate education workgroup.
2012	Undergraduate education workgroup -Subgroup for Research Methods and Statistics
2011	Faculty Meeting Secretary

Student Research Committees (Note: Mittal lab students noted in separate section above)

Undergraduate Honor's Projects

Northwestern University

- 2020- Sophia Rodesky (Mentor Haase)
- 2020- Klaudia Konieczny (Mentor Haase)
- 2018- Olivia shay (Haase)
- 2018- Emily Friaser (Zinbarg)
- 2018- Victoria Steigerwald (Zinbarg)

University of Colorado Boulder

- 2013- Amanda Walker (Mentor: Mark Whisman): Asian Americans and Latino Americans: Interracial Couple Functioning in a National Sample
- 2013- Joseph Malicke (Mentor: Bernadette Park): Gender Ideology and Evaluations of a Male versus Female Target: Effects of Emphasizing versus Downplaying Gender Differences
- 2013- Ariel Jensen (Mentor: Yuko Munakata): Relationship between BDNF genotype, hippocampus volume, and anxiety
- 2013- Roxanne L. Ross (Mentor: McGraw): Don't worry, it's not real: How humor and violation severity varies with hypothetical psychological distance.
- 2013- Jeff Kamp (Mentor: Louise Silvern): Perceived Social Support and Individual Differences in Childhood Traumatic Grief
- 2013- Emmie Matsuno (Mentor: Van Boven): Attitude Extremity and Party Identification Strength on Perceived Polarization
- 2013- Ross Kaslow (Mentor Angela Bryan): Cognition and Stress between Groups of Drinkers and amounts of Exercise
- 2012- Tess Adams (Mentor: Matthew Keller): Judging a Book By Its Cover: Are First Impressions Accurate?

Masters Defense

- 2019- Jeremy Jabbour, Sexual arousal patterns of mostly heterosexual men (Baily)
- 2019- Ann Carol, Risk for Bipolar Spectrum Disorders Associated with Positive Urgency and Orbitofrontal Cortical Grey Matter Volume (Nusslock)
- 2019- Ariela Kaiser (Shankman)

2016- Natasha Hansen (Hutchinson) Neural correlates of risky sex and response inhibition in adolescents
2015- Katherine Damme (Nusslock) Nucleus Accumbens Connectivity Relates to Trait Risk for Hypomania: A Structural and Functional Analyses of Hypomanic Risk Factors
2014- Briana Robustelli (Whisman) Marital, Family, and Friend Relationship Quality: Associations with Mental and Physical Health Outcomes
2014- Daniel Leopold (Willcutt) Evaluating the construct validity of adult ADHD and SCT among college students
2013- Hollis Karoly (mentor: Hutchinson) Preliminary functional MRI results from a combined stop-signal/alcohol-cue task
2013- Rachel Thayer (mentor: Hutchinson) Alcohol and marijuana use interact with associations between structural and functional connectivity among high-risk adolescents

Comprehensive Exams

2020- Brian Kraus (Gratton)
2017- James Glazer (Mentor Nusslock), Chair: Mittal
2016- Katherine Damme (Mentor: Nusslock)
2015- Coral Cabrera-Montalvo (Mentor: J. Stitzel) Evaluating schizophrenia related behaviors in mice with the CHRNA5 D398N human polymorphism
2014- Christopher Hawkey (Mentor: Miklowitz)
2014- Daniel Johnson (Mentors: Soo Rhee, Mark Whisman)
2014- Mikaela Kinnear (Mentor: Erick Willcutt)
2014- Ashley Smith (Mentor: Soo Rhee)
2013- Ryan Newsom (Mentor: Serge Campeau)
2013- Sarah Wu (Mentor: Erick Willcutt)
2012- Jenifer Felder (Mentor: Sona Dimidjian)
2012- Chad Osterlund (Mentor: Robert Spencer)

Dissertation Projects

2019- Zach Millman (Mentor: Schiffman, UC Irvine), Facial affect identification errors and risk for schizophrenia spectrum illnesses
2018- Tatiana Karpouzian (Mentor: Reiley) Reduced task-evolved response on an executive control task among individuals across the psychosis spectrum
2018- Avante Smack (Mentor: Jennifer Tackett): Racial/Ethnic Differences in Values, Personality, and Psychopathology in Youth
2018- Katherine Damme (Nusslock)
2017 Chris Hawkey (Mentor: Miklowitz): Risk factors for suicide in pediatric bipolar disorder.
2016- Kevin Hsu (Bailey)
2016- Mia Nunez (Mentor: Zinbarg); Chairs: Zinbarg, Mittal
2016- Christina Young (Mentor: Nusslock)
2015- Sarah Wu (Mentor: Erick Willcutt): Measurement and Classification Issues in Mathematics and Reading Disorders
2015 Ryan Newsom (Mentor Campeau): Endogenous cannabinoid regulation of the HPA axis and of neuroendocrine reactivity to acute and repeated stress
2014- Daniel Johnson (Mentors: Soo Rhee, Mark Whisman): Rumination as a transdiagnostic risk factor for psychopathology
2014- Mikaela Kinnear (Mentor: Erick Willcutt): Social functioning in DSM-IV Attention-Deficit/Hyperactivity Disorder: A multi-dimensional examination of adolescents and young adults

2014- Ashley Smith (Mentor: Soo Rhee) Longitudinal examination of genetic and environmental influences on the association between temperament and self-restraint in toddlerhood and executive function abilities in late adolescence

2013: Chad Osterlund (Mentor: Bob Spencer) Negative feedback control over the hypothalamic-pituitary-adrenal axis response to stress is a function of temporal, spatial and physiological actions of corticosterone.

2012- Jenifer Felder (Mentor: Sona Dimidjian): Targeting Barriers to Care for Pregnant Women at Risk for Depression: Examining The Role of Stigma and the Feasibility of a Web-Based Depression Prevention Program

Leaves of Absence

I had a family leave for the Fall 2019 for the birth and care of my son Elliott. This involved a teaching and departmental service reduction, but I continued to run my research enterprise at full capacity and to participate in mentorship and national service. I have not had a research leave.

Consultancies

Takeda Pharmaceuticals (2016-2017), Meeting with drug development team to discuss research-surrounding assessment of treatment outcome measures.

Community Work

Teaching Experience

Curriculum Development

2015-2017 *Northwestern: Advanced Graduate Psychopathology 421/497; Research Methods in Schizophrenia 357/497; Psychopathology 303:* Please see section below for course detail.

2010-2015 *University of Colorado Boulder: Adult Psychopathology 5433; Abnormal Psychology 4303; Psychopathology 3313:* Please see section below for course details.

Courses

2016-Present *Northwestern University, Department of Psychology, Advanced Graduate Psychopathology 421/497 (graduate).* I have taught this course six times: Spring 15/16, Winter 16/17, Winter 17/18, Fall 18/19, Winter 19/20, Fall 20/21. A graduate course designed to provide in-depth coverage into the pathogenesis, treatment and clinical presentation of serious mental illness. This course is a joint graduate class, including students from both the Feinberg and Weinberg clinical graduate programs. Students work closely with me to complete a “letter to the editor” writing assignment in which they address current issues relating to a respective research domain and learn about journal writing and peer review.

- 2016-Present *Northwestern University, Department of Psychology, Research Methods in Schizophrenia 357/497* (undergraduate/graduate). I have taught this course 3 times: Fall 15/16, Fall 16/17, Spring 18/19). An in-depth experiential learning environment. Students rotate between learning about methods such as neuroimaging, psychophysiology, eye-tracking, and tDCS, visiting labs on campus that are currently employing these methods (including observation and active learning experiences), understanding how these methods improve understanding of schizophrenia, and working in teams to design multi-modal research projects. The class culminates in a research proposal and presentation.
- 2016-Present *Northwestern University, Department of Psychology, Psychopathology 303* (undergraduate). I have taught this course four times: Spring 15/16, Spring 17/18, Winter 18/19, and Spring 19/2020. I am scheduled to teach it twice more this academic year. A large undergraduate course (100 students) designed to cover a variety of the major psychiatric disorders, causes, and empirically supported treatments.
- 2013-2014 *University of Colorado Boulder, Department of Psychology and Neuroscience, Abnormal Psychology 4303*. A large undergraduate course (150 students) designed to cover a variety of the major psychiatric disorders, causes, and empirically supported treatments.
- 2011-2015 *University of Colorado Boulder, Department of Psychology and Neuroscience, Adult Psychopathology 5433*. A graduate course designed to provide in-depth coverage into the pathogenesis and clinical presentation of mental illness.
- 2010-2011 *University of Colorado Boulder, Department of Psychology and Neuroscience, Psychopathology 3313*. A large undergraduate course designed to cover a variety of psychiatric disorders/treatments in greater-depth than a prototypical Abnormal Psychology seminar. The course also includes weekly lab section and focuses on in-class exercise and discussion.
- 2009 *University of California Los Angeles, Department of Psychology, Advanced Research Seminar, PSYC 199 I & II*: (Instructor Cannon, Supervisor Mittal). In this series, advanced undergraduate students work closely with a teacher to design and develop individual research projects. The students are mentored throughout the process of conducting literature reviews, designing studies, analyzing data, and presenting research.
- 2008 *University of California Los Angeles, Department of Psychology, Undergraduate Research Seminar, PSYC 196*: (Instructor Cannon, Supervisor Mittal). A course designed to provide a small group of undergraduate students with intensive hands on research training and specialization within specific topics in clinical neuroscience. Students develop advanced skills (e.g., Magnetic Resonance Imaging ((MRI): delineating structures; coding movements and nonverbal behavior).

- 2005 *Emory, Co-instructor – Research Methods*: Teaching a weekly lab in which students completed three major research projects and wrote a formal research paper for each project. I taught scientific writing in APA style and applications of research methodology techniques.
- 2004 *Emory University, Teaching Assistant – Statistics* –Designing tests, lectures, and running a weekly lab that involved teaching students to use a statistical package to complete assignments.

Select Guest Lectures

Northwestern

- 2019 *Northwestern University, Dedre Gentner, Motor Markers in psychosis*, CogSci Prosem
- 2017 *Northwestern University, Motor pathology and schizophrenia: A brain biology perspective*, Neuroscience 206, Host: Segraves
- 2016/17 *Northwestern University, Psychology Proseminar, Lectures on Schizophrenia and motor pathology*
- 2017 *Northwestern University, Department of Communications, Development, Guest Lecture*, Molly Losh
- 2016 *Northwestern University, Undergraduate Cognitive Science Guest Lecture*, David Rapp
- 2016 *Northwestern Active Minds, Stigma and Schizophrenia Spectrum Disorders*
- 2016 *Northwestern University, Graduate Pro-seminar, Psychosis*

University of Colorado Boulder

- 2014 *University of Colorado Boulder, Department of Psychology and Neuroscience*, lecture for Linda Watkins, Neuroscience Grand Round Series
- 2015 *University of Colorado Boulder, Department of Psychology and Neuroscience*, lecture for June Gruber, Human Emotion
- 2014 *University of Colorado Boulder, Department of Psychology and Neuroscience*, lecture for Tor Wager, Affective Neuroscience Guest Lecture (NRSC4015)
- 2013 *University of Colorado Boulder, Department of Psychology and Neuroscience*, Guest lecture for Kent Hutchinson, Abnormal Psychology (Spring Semester). Schizophrenia
- 2013 *University of Colorado Boulder, Department of Psychology and Neuroscience*, Guest lecture for Joanna Arch, Psychopathology (Spring Semester). Schizophrenia
- 2012 *University of Colorado Boulder, Department of Psychology and Neuroscience, Adult Psychotherapy 7673 (Fall Semester)*: Guest lecture for graduate class on pharmacological and psychosocial treatment for schizophrenia spectrum illness.
- 2012 *University of Colorado Boulder, Department of Psychology and Neuroscience, Developmental Psychopathology (Guest Lecture for Erik Willcutt, Ph.D.)*. Prenatal, child, and adolescent neurodevelopment.
- 2011 *University of Colorado Boulder, Department of Psychology and Neuroscience, Introduction to Neuroscience: (Spring Semester)* Two guest lectures for undergraduate class on etiological factors of psychosis for Dr. Ryan Bachtell.

2010 *University of Colorado Boulder, Department of Psychology and Neuroscience, Adult Psychotherapy 7673 (Fall Semester):* Guest lecture for graduate class on pharmacological and psychosocial treatment for schizophrenia spectrum illness.

Related Training Experiences

2006 – 2007 *National Science Foundation (NSF) Fellowship: Problems and Research to Integrate Science and Mathematics (PRISM):* An NSF funded program developed to apply active learning strategies in teaching science. The fellowship included bi-weekly lectures implementing science projects in a 7th grade science class in the metropolitan Atlanta area.

2006 *National Science Foundation (NSF)- Problems and Research to Integrate Science and Mathematics (PRISM):* An intensive summer course designed to help teachers develop active and problem based learning skills. The course was designed to teach PRISM participating faculty to develop courses, as well as learn the necessary skills to implement problem based learning.

2003-2004 *Emory University Teaching Practicum.* Weekly seminar with a faculty supervisor and other graduate teaching assistants surveying teaching strategies, active learning techniques, as well as addressed issues raised while teaching.

2003-2004 *Emory University Teaching Assistant Training and Teaching Opportunity Program (TATTO):* A training series to develop teaching skills through classroom instruction and supervised experience. Includes a three-day course on teaching, a semester-long Teaching Practicum course, supervised teaching experience, and guest lecturing for a large lecture class.

Clinical Experience

2014-Present **Licensed Clinical Psychologist**

2010-Present **Clinical Supervisor**
- Graduate student supervision in comprehensive report writing, diagnostic interviews, and neuropsychological functioning assessment in adolescents with serious mental illness. I supervise between 3-5 students each semester.

2008-2010 **Postdoctoral Clinical Training**
David Geffen School of Medicine, Department of Psychiatry and Biobehavioral Sciences, Semel Institute for Neuroscience & Human Behavior and the Resnick Neuropsychiatric Hospital:
University of California Los Angeles
Supervisors: Carrie Bearden, Ph.D. Melita Daley, M.D., Tyrone Cannon, Ph.D.
Description: Advanced Clinical Diagnosis and Treatment of Serious Mental Disorders.

- 2007 - 2008 **Clinical Psychology Internship**
David Geffen School of Medicine, Department of Psychiatry and Biobehavioral Sciences, Semel Institute for Neuroscience & Human Behavior and the Resnick Neuropsychiatric Hospital:
University of California Los Angeles
Supervisors: Tyrone Cannon, Ph.D., Carrie Bearden, Ph.D., Mary O'Brien, Ph.D., Sandra de Silva, Ph.D. Cindy Pikus, Ph.D., David Rudnick, M.D.
Description: Predoctoral Clinical Psychology Internship: Adolescent Serious Mental Illness Track; Adult Eating Disorder Group therapy
- 2008 **Supervision**
Supervision and mentorship of Masters, Psy.D. and Ph.D. level externs and interns at UCLA, NPI in a case management and clinical diagnostic assessment, focusing on adolescent and serious mental health issues.
- 2006 - 2007 **Treatment Team Practicum**
Inpatient Unit, Department of Veterans Affairs Hospital, Atlanta
Supervisor: Ericka Duncan, M.D.
Description: Working with a multidisciplinary treatment team composed of a psychiatrist, pharmacologist, drug rehabilitation counselor, and a social worker. The team is charged with interviewing patients and then working to devise, coordinate, and implement clinical treatment and long-term care. The population consisted of individuals with severe psychopathology, (predominately schizophrenia, schizoaffective, PTSD and bipolar and major depressive disorders).
- 2002 - 2007 **Intern-Therapist Practicum**
Emory University Psychological Center, Emory University
Supervisors: Cynthia Messina Ph.D., Elaine Walker Ph.D., David Freides, Ph.D., Ann Abramowitz, Ph.D., Regina Pyke, Ph.D.
Description: Conducting cognitive behavioral therapy (CBT), interpersonal therapy, and emotionally focused therapy in a community outpatient clinic.
- 2002 – 2007 **Psychological and Neuropsychological Testing Practicum**
Emory University Psychological Center, Emory University
Supervisor(s): Cynthia Messina Ph.D., Elaine Walker Ph.D., David Freides, Ph.D., Ph.D., Anne Abramowitz, Ph.D.
Description: Conducting, interpreting, and writing comprehensive assessments for child, adolescent and adult psychological and neuropsychological testing.
- 2002 - 2007 **Adolescent Development and Psychopathology Practicum**
Affiliated with Emory University
Supervisor: Elaine Walker, Ph.D.
Description: Conducted clinical diagnostic interviews, personality assessment, and neuropsychological testing with adolescents at-risk for psychopathology and their families.

2005 - 2007

Adolescent and Adult Suicide Awareness Practicum

Supervisor(s): Mark McCloud Ph.D., Cynthia Messina, Ph.D.

Description: Visited undergraduate classes at Emory University and facilitated the discussion of material compiled by the National Society for Suicide Awareness. The discussion was designed to increase awareness of suicide risk factors and inform students of the various pathways to care.
